Pamekasan, Jawa Timur

As an Informatic Engineering student specializing in network and Linux administration, I am passionate about expanding my knowledge and skills in networking and Linux. Eager to contribute to projects that enhance my practical experience and allow me to further develop my expertise. Seeking a challenging opportunity where I can leverage my educational background, technical skills, and hands-on experience to make meaningful contributions.

EXPERIENCES

Network Operations Center (NOC) - Skynet ISP 2025 — Sekarang

- Handle operasional ISP: monitoring, incident triage, routing/PPPoE, serta otomasi laporan dan tooling internal.
- PPPoE ops + provisioning
- Monitoring automation
- Incident response

Tech Team Academy - PT. ARAI RUBBER SEAL INDONESIA Feb 2024 — Jun 2024

- Assembled and replaced PC units for employees based on departmental needs.
- Installed and configured CCTV systems for monitoring production and office areas.
- Handled the installation and setup of network printers, including troubleshooting and printer sharing across devices.
- Performed crimping and arrangement of LAN cables to ensure stable network connectivity.
- Contributed to the development of the company's internal ERP application, primarily focusing on backend development using MySQL Server, with a frontend built in C#.

Computer Network Installation Training - UPT BLK Surabaya Okt 2025 — Nov 2025

- Subnetting & VLSM calculation
- Install & configure Switch, Router, Hub, Access Point
- VLAN creation & management
- Routing: RIP, OSPF, EIGRP, BGP, Static
- LAN/WiFi troubleshooting

EDUCATION LEVEL

Universitas Trunojoyo Madura — Bangkalan, Indonesia Jul 2020 — Okt 2025

Fresh Graduate in Informatic Engineering, 3.70/4.00

Engaged actively in various campus organizations, demonstrating a proactive approach to extracurricular activities. Maintaining a consistently high GPA, I concurrently spearheaded a substantial project focusing on optimizing Linux servers and enhancing network security and performance. This initiative not only contributed to a more efficient and secure server environment but also underscored my dedication to academic excellence throughout my academic journey.

ORGANISATIONAL EXPERIENCE

KOELIT Community in Universitas Trunojo Madura - Bangkalan, Indonesia

Jun 2022 — Aug 2023

Takes an active role as a contributing member in a Linux enthusiast community, engaging in knowledge-sharing sessions and collaborative discussions.

COURSE AND TRAINING

- Successfully Completed Beginner's Guide to Computer Networking, Dicoding Indonesia — Okt 2023 — Nov 2023
- Completed Fundamentals of DevOps, Dicoding Indonesia — Sep 2023 — Okt 2023
- Successfully Completed Network Penetration Testing, Cyber Academy Indonesia — Jul 2024 — Agu 2024

SKILLS

Hard Skills: IT Support, Cloud Computing, Server Virtualization, Network Administration, Load Balancing, PHP

Soft Skills: Team Work, Time and Project Management, Problem Solving, Object-oriented
